Beam Interactions with Materials & Atoms

Contents

Preface vii
Committees viii

Section I. Secondary emission – Theory

Coherent electron emission from high-energy ions in crystals
F.J. García de Abajo 1
Photon emission from Ag_n^+ clusters: Role of the ionization potential
M. Alducin and P. Apell 7
Microscopic description of proton induced electron emission from insulators: comparison between alumina and aluminum targets
S. Bartholomé, A. Dubus, J. Devooght, J.-P. Ganachaud and C. Attard 13
Theoretical study of electron emission induced by neutral particles
A. Dubus and M. Rösler 18
Ion-induced electron emission from simple metals: Charge state effects
M. Rösler and F.J. Garcia de Abajo 23

Section II. Secondary emission – Experiment

Inelastic processes in keV H^+ and He^+ scattering from Cu(110)
G. Spierings, I.F. Urazgil'din, P.A. Zeijlmans van Emmichoven and A. Niehaus 27
Heavy ion track potentials in solids probed by electron yield measurements
H. Rothard, M. Jung, J.-P. Grandin, B. Gervais, M. Caron, A. Billebaud, A. Clouvas, R. Wünsch, C. Thierfelder and K.-O. Groeneveld 35
Dependence of the electron emission statistics on the charge state of He ions impinging on metals
O. Benka, T. Fink, A. Schinner and E. Steinbauer 41
Comparison between theory and experiments for the electron emission statistics induced by protons incident on thin carbon foils
A. Dubus, J. Devooght, A. Billebaud, R. Kirsch, M. Fallavier, J.-C. Poizat, J. Remillieux and Z. Vidović 45
Secondary electron yield induced by slowly moving heavy ions
St. Gelfort, H. Kerkow, R. Stolle, V.P. Petukhov and E.A. Romanovskii 49
Circularly polarized photon emission spectroscopy of keV ions scattering off (un-)magnetized surfaces
R. Hoekstra, J. Manske, M. Dirska, G. Lubinski, M. Schleberger and A. Närmann 53
The spectrum line width observed in electron emission from the autodetachment of the He^{-*} ($1s2s^2$; ^2S) formed in collisions of the He^+ projectiles with low workfunction metallic surfaces
M. Kato, V. Kempter and R. Souda 59
Electron emission from temporary negative $N^{-*}(^1D)$ ions formed in slow collisions of N^+ with insulator surfaces (LiF, CsI)
P. Stracke, F. Wiegershaus, St. Krischok, H. Müller and V. Kempter 63
Electron emission in slow collisions of protons with a LiF-surface
P. Stracke, F. Wiegershaus, S. Krischok, V. Kempter, P.A. Zeijlmans van Emmichoven, A. Niehaus and F.J. García de Abajo 67
Characterization of photons produced in solid films of organic molecules by the impact of ^{252}Cf-fission fragments
M. Wehofsky, D. Martin, K. Koch, W. Tuszynski and E.R. Hilf 71

Section III. Electronic energy loss

Forces on swift ions near plane surfaces
P. Sigmund 77
Surface channeling of fast ions
M.-h. Mannami, K. Kimura, K. Narumi, M. Yamamoto and S. Naito 97
Contribution of valence electrons to the electronic energy loss of hydrogen ions in oxides
P. Bauer, R. Golser, F. Aumayr, D. Semrad, A. Arnau, E. Zarate and R. Diez-Muiño 102
Dependence of the stopping power on the surface response function
M.A. Cazalilla and F.J. García de Abajo 106
Energy-loss spectra of charged particles in the presence of charge exchange
L. Glazov and P. Sigmund 110
Energy loss and charge state distribution of reflected ions in $N^{6,7+}$ ion–Al(110) surface collisions
H. Khemliche, J. Limburg, R. Hoekstra, R. Morgenstern, N. Hatke, E. Luderer and W. Heiland 116
The electronic energy loss of 100 keV heavy ions in medium energy ion scattering analysis of a Ta_2O_5 ultrathin film
D.W. Moon, H.K. Kim, Y.P. Kim, Y.H. Ha, S.K. Choi and S. Kim 120
Energy loss of fast protons in grazing scattering from an Al(111)-surface
H. Winter, M. Wilke and M. Bergomaz 124
Depth dependent charge state distributions of heavy MeV ions in RBS and ERD experiments
S. Jamecsny and H.D. Carstanjen 128

Section IV. Multiply charged ions

Energy gain of highly charged ions in front of LiF
L. Hägg, C.O. Reinhold and J. Burgdörfer 133
On the neutralization of singly and multicharged projectiles during grazing interactions with LiF(100)
F.W. Meyer, Q. Yan, P. Zeijlmans van Emmichoven, I.G. Hughes and G. Spierings 138
Charge state effects in the interaction of multiply charged ions with surfaces
C. Lemell, HP. Winter and F. Aumayr 146
Emission of secondary particles from metals and insulators at impact of slow highly charged ions
T. Schenkel, A.V. Barnes, M.A. Briere, A. Hamza, A. Schach von Wittenau and D.H. Schneider . . . 153
The charge state of recoils under surface bombardment by multiple charge ions
V.Kh. Ferleger, M.V. Medvedeva and I.A. Wojciechowski 159
Evolution of KLL-Auger decay from $N^{6+} \rightarrow$ Au(111) above the first layer
J. Thomaschewski, J. Bleck-Neuhaus, M. Grether, A. Spieler, D. Niemann and N. Stolterfoht. 163
Correlation between projectile Auger electrons and slow secondary electrons emitted in collisions of highly charged ions with an insulator surface
V.A. Morosov, M.N. Gaboriaud, M. Barat and P. Roncin 167

Section V. Molecules and clusters

Surface scattering of hyperthermal (10–50 eV) neutral C_{60} molecules
E. Kolodney, B. Tsipinyuk, A. Bekkerman and A. Budrevich 170
Dissociation dynamics in hyperthermal energy molecular ion/surface collisions
J.R. Morris, G. Kim, T.L.O. Barstis, R. Mitra, C.L. Quinteros and D.C. Jacobs 185
Molecule scattering from solid surfaces: Orientation and surface corrugation effects
M. Vicanek, T. Schlathölter and W. Heiland 194
Distortion of H_2 potentials by embedding into an electron gas at molecule scattering by a metal surface
I.S. Bitensky, V.Kh. Ferleger and I.A. Wojciechowski 201
Collisions of fast clusters with solids and related phenomena
A. Brunelle, S. Della-Negra, J. Depauw, D. Jacquet, Y. Le Beyec, M. Pautrat and Ch. Schoppmann . . 207

Ionization and fragmentation of clusters sputtered from a metal surface by fast ions
V.Kh. Ferleger, M.B. Medvedeva and I.A. Wojciechowski 214
Surface energy transfer by low energy polyatomic ion collisions
L. Hanley, H. Lim, D.G. Schultz, S.B. Wainhaus, P. de Sainte Claire and W.L. Hase 218
Scattering and deposition of mass-selected antimony clusters
B. Kaiser, T.M. Bernhardt and K. Rademann 223
Study of generalized spheroidal continuum wave functions applied to hydrogenic system in a half space
M.L. Martiarena and V.H. Ponce 228

Section VI. Neutralisation and charge exchange

Trapping at hyperthermal energies
E.B. Dahl, D.M. Goodstein, C.A. DiRubio and B.H. Cooper 237
Local effects of the adsorbates on the resonant atom–surface charge transfer
A.G. Borisov, G.E. Makhmetov, B. Bahrim, D. Teillet-Billy and J.P. Gauyacq 242
Charge transfer of slow light ions interacting with surfaces
J. Merino, N. Lorente, W. More, F. Flores and M.Yu. Gusev 250
Band effect on resonance neutralization
R. Souda and K. Yamamoto 256
Resonant charge transfer during scattering of low energy $^{7}Li^{+}$ from cesiated surfaces
J.A. Yarmoff and C.B. Weare 262
Ion fractions in 6 keV Ne^{+}, Ar^{+} and Na^{+} scattering from a GaAs(110) surface
G.R. Gómez, J.E. Gayone, O. Grizzi, E.A. Sánchez, R.G. Pregliasco, M.L. Martiarena, E.A. García and E.C. Goldberg 268
Close-coupling calculations for ion–surface interactions
P. Kürpick, U. Thumm and U. Wille 273
Negative ion formation on Al, Si and LiF
N. Lorente, J. Merino, F. Flores and M.Yu. Gusev 277
Electron capture and loss in the scattering of oxygen atoms and ions on Mg, Al and Ag surfaces
M. Maazouz, L. Guillemot, T. Schlatholter, S. Ustaze and V.A. Esaulov 283
Quantum approach to charge transfer between low energy H^{+} ions and Al surfaces
J. Merino, N. Lorente, F. Flores and M.Yu. Gusev 288
Scattering of fast Na^{+}-ions from alkali-halide surfaces under a grazing angle of incidence
A. Mertens, C. Auth and H. Winter 293
Contribution to the study of Ne^{+}–Si surface collisions induced charge exchange
S. Mouhammad, P. Benoit-Cattin, C. Benazeth, N. Benazeth, P. Cafarelli, M. Richard-Viard and J.P. Ziesel 297
Interaction of Rydberg atoms with surfaces: Electron tunneling processes
P. Nordlander and F.B. Dunning 300
Electron tunneling rates between atoms and surfaces covered by dielectric films
P. Nordlander and J.P. Modisette 305
Atomic level broadening near metal surfaces: Inclusion of hybridization effects in first-order calculations
U. Wille 310

Section VII. Surface scattering and applications

Element-, time- and spatially-resolved images of scattered and recoiled atoms
C. Kim, C. Hoefner, V. Bykov and J.W. Rabalais 315
Surface reactions during plasma-enhanced chemical vapor deposition of hydrocarbon films
A. von Keudell 323

MARLOWE simulations of He and Ne ion scattering on $Cu_3Au(100)$ and comparison with TOF-ISS experiments
L. Houssiau and P. Bertrand 328
Multiple collisions in classical projectile–surface scattering
A. Muis and J.R. Manson 332
